IMPORTANT INFORMATION

At Roundel we are proud that almost all our ranges have matching exposed cabinet finished ends as standard (within the limitations of the different door and cabinet materials) but please be aware that a number of our kitchen ranges are not supplied as standard with a matching exposed cabinet finished end. For clarity we have confirmed overleaf the kitchen range and the cabinet decor used with each of these ranges if not fully matching. Full specification details are available from your Regional Sales Manager. For all these ranges, we always suggest you request both a sample of the door and cabinet prior to ordering.

If it's important it's worth reading.

Solid Wood Ranges
